KEYNOTE TOPICS

#1 HARNESSING THE NEW LONGEVITY

To thrive in this new world of fewer babies and longer lifespans, companies must:

1. Harness the talent, experience, creativity, energy and social acumen of older workers
2. Build multigenerational teams that score high on collaboration and innovation
3. Create a culture where everyone can do their best work at every age
4. Tap the vast spending power of older consumers

Drawing on the latest research and case studies, Carl shows how your company can channel the longevity revolution to win the race to the top.

KEYNOTE TOPICS

#2 HOW TO EMBRACE AGING AS AN ADVENTURE

We are living better for longer than ever before. Scientists, artists and entrepreneurs are hitting their stride later in life. Pop culture, from movies to modelling to the media, is carving out more room for people past the first flush of youth. Bottom line: there has never been a better time in history to grow older.

Drawing on the latest science, personal experience and case studies from around the world, Carl inspires audiences to embrace aging as both a privilege and an adventure.

That is what we had with Carl and I can assure you that he will take your advice into consideration and make the best event possible. Really recommend him as a speaker!”

“Carl’s presentation was a hit, delivering a fresh perspective to our latest conference that tackled speed in business. Carl’s insights and passion managed to inspire so many C-level executives that going slower at times pays more and as a result it helps us improve and possibly find ways of doing things smarter and faster. I highly recommend Carl as he is a very good public speaker and able to adapt his ‘Slow Movement’ to so many different contexts.”

TESTIMONIALS

“Mr. Honore’s witty presentation was intellectually stimulating, highly entertaining, and forced us all to look at how we think about the invisible force that rules our lives: time. Encompassing world history, sociological observation, and journalist’s eye for accurate detail, his talk was the unquestioned highlight of our conference this year.”

Russell Willis Taylor,

“Carl Honoré was the principal keynote speaker at the World Leisure Congress in Chuncheon, South Korea. His contribution to several hundred practitioners, academics and politicians drawn from the fields of tourism, recreation, sport and the arts was outstanding. With engaging humour and a range of apposite anecdotes on human foibles and behaviour, recognised so easily by an international audience, he compared and contrasted the external pressures on individuals to react and succeed with a more relaxed lifestyle choice...”
